

BUILD TOUGH

Heavy Duty Industrial Mixer

Spinmix 900

Heavy Duty Industrial Mixer

Spinmix 900

Specification

- ✓ 750mm wide opening – Max Can Height "BEST IN MARKET"
- ✓ New Manual / Auto Software Controls
- ✓ Fully Programmable times – speeds-pressures
- ✓ Standard can width 34cm – optional 39cm wide
- ✓ Max product weight 50Kg – "BEST IN MARKET"
- ✓ Power supply 230v 50Hz or 110v 60Hz
- ✓ Cast Steel Components for Long Life and solid reliability
- ✓ Revolutions form 10RPM to 380RPM – UNIQUE PROGRAM
- ✓ Stainless Steel Casing

Dimensions

Width = 116cm / Depth = 110cm / Height = 145cm

Operation

New Spinmix 900 developed to handle OZONE CONVERTERS that are used in Jet Aircraft worldwide to filter the air going into the cabins. The project was to fit the very large Ozone converter into the Mixer and gently mix with a solution inside to allow units to be fully cleaned for re-use.

Unique development allows Aerospace Companies to recycle the Ozone units effectively and to set up Best Practice systems for High Quality and Consistent Cycles ensuring same excellent results each time.

Standardisation across all products

We utilise the same Electrical control systems on all products so that we have full inter-changeability; Best Reliability in Market; Ultimate Flexibility in Programming; Best Solution Provider in Market.
